Project Name:
3D snake game

Github Repository:
https://github.com/DulapahV/3D-Snake

Detail:

This project aims to recreate a retro game: snake, in 3d perspective.

The main objective of the game is for the player to control the snake to move around searching for food to grow longer, avoiding obstacles along the way.
- The length of the snake represents the player's score.
- The game ends when
    - The player collide into walls
    - The player collides with their own snake.
    - The player reaches max length.
